FLUXXBreeder

Broiler Breeder Feeding Pan

FLUXXBreeder

When your breed needs to feed, the **FLUXXBreeder** delivers. The **FLUXXBreeder** feeding pan for broiler breeder production is a breed of its own.

THE ADVANTAGES AT A GLANCE:

- 16 "real" feeding spaces provides more feeding space than a linear trough
- The female-only function of the grille prevents males from eating from the feed pan
- With 11 different feeding window widths and 4 different feeding window heights, the female-only grille is adjustable and can be used for all types of breeds
- Window widths and heights are adjustable during the bird cycle
- Spin-n-lock system allows for simple, one-handed adjustment of the feed level
- The hinged pan bottom allows for easy and thorough cleaning
- Built-in feed reducer ensures fast and simultaneous filling of all pans
- Smooth feed saving lip prevents bruises and feed losses
- Sliding shut-off to close individual pans
- Openings in the pan top allow light in the pan
- The pan rotates 360°

16 "real" feeding spaces

Adjustable window for all types of breeds

Grille design only allows females to feed
