NXB

Nest and Egg Collection System for the **Next Breed** of Breeder Hens

TECHNICAL SPECS:

WELL DESIGNED:

- The **NXB** is a single hole laying nest with 10, 9 or 8 nest holes per section side (length of a section is 8' or 2,438 mm)
- Plastic or Woven belts are available
- Black plastic partitions
- Full nest width egg shields
- Complete coverage of the egg belt keeps eggs hidden
- Nest floor and the substructure below the egg belt consists of corrosion-proof zinc aluminum coated wire grate
- Nest bottom is covered with a perforated nest insert which is easy to install, or taken out for easy cleaning
- Removable sheet metal covers allow the producer easy access to the egg belt for inspection
- Centrally activated closure rods can be lowered at night to prevent hens from sleeping in the nest and aid in keeping the nests clean
- Central suspension system can be winched for servicing between batches

1. **NXB 1000** - single belt nest

2. **NXB 2000** - double belt nest

COLLECTOR FEATURES:

- Durable, galvanized, heavy duty construction
- Large, adjustable egg shelf
- Front mounted control with reverse
- Height can be set from 19.7" to 39.37 " (500 mm to 1000 mm) to fit floor elevations.
- Collector drive unit and table comes completely assembled, just hook up the belt and plug in
