Relax – the perfect solution for broiler breeders

Relax is a group laying nest, which has been newly developed by Big Dutchman especially for broiler breeders. The following points are decisive to achieve a high quality of hatching eggs:

- ✓ high nest acceptance
- ✓ high hygienic standard
- ✓ short rolling-off distance and gentle transport of the eggs
- ✓ easy nest and egg belt control

hens have to be prevented from sleeping or brooding inside the nest. Relax fulfils all of these requirements optimally.
